Last Week's Program

Max Metcalf gave us an update on the tremendous growth at the BMW plant in Greer. Since opening in 1994, they have grown from 700 to 7000 employees and they are continuing to expand facilities. He pointed out that BMW is a leader in environmental sustainability, citing fork lifts powered by hydrogen fuel cells as an example. The economic impact from BMW to the South Carolina economy has been estimated at more than $8.8 billion.
