Last Week's Program

Katherine Jeter gave an inspiring talk about her climb on Mt Kilimanjaro at age 75. Mount Kilimanjaro is a dormant volcanic mountain in Tanzania. It is the highest mountain in Africa and the highest free-standing mountain in the world at 19,341 feet above sea level. Katherine was able to reach the top in an 8 day climb and then descend in only 2 days. Less than 50% of the people who attempt this climb manage to reach the top. She encouraged us to climb our own mountain top and seek challenges at every age.

Great Kids Deserve Great Books

The Rotary Club of Spartanburg is once again participating with the Great Kids Deserve Great Books Book Drive organized by Hub City Writers Project. We are supporting the project with a cash gift, but also will provide two collection days when you can bring new or gently used children's books to the Piedmont Club for collection. Last year our club donated more than 1,000 books to this worthy cause! We have many new members in our club this year, so please take some time to check your attic and your bonus room for books that your children or grandchildren may have outgrown. Of course, brand new books are especially welcomed. We will collect books at our meetings on April 22nd and 29th.
