While flying his 68th mission, on September 26, 1966, Ted's F-105 was hit by ground fire and he was forced to eject over enemy territory, north of Hanoi. Suffering a broken left leg and a sprained right leg, he was subsequently captured by the North Vietnamese. He remained a prisoner of war for 6 years until his release March 4, 1973. ROTARY CENTENNIAL CLOCK UPDATE

We anticipate placing the Rotary Clock in either August or September. The granite base is being quarried out of Georgia and MR Granite will handle the placement. We plan to host a social or meeting at the time of the installation, and we will communicate details as they develop.
